SOME GOOD NEWS AND SOME BAD NEWS

First the Bad News...

Our state and federal governments have been hijacked. Our American values, our fundamental ideals, our fiscal focus and concern have been radically altered. Altered to a system and form of government run, not by cabinet members, not by merit, but by "czars". From bailouts to bribery, closed-door meetings to cover ups. From burdensome taxes to unjustified spending. All while unemployment rates are skyrocketing, the housing market is plummeting and our Representatives are vacationing.

Now the GOOD NEWS!!!

For the first time in many of our lives, we are given the opportunity to turn it all around. "We the People" have had a taste of what the Democratic Party really wants this country to become: Complacent and Non-Competitive. Here in Connecticut, however, we know that that is what has gotten us into this mess as the Democrats have controlled both houses of the Connecticut Legislature **far too long**. They have taxed and spent us into oblivion. Their policies have driven out (or closed) many businesses across our state.

It is time for some true, visionary leadership here in Connecticut, as well as in Washington, D.C. We know it. YOU know it. It IS time. Join us, as we *March to Victory in 2010*.
